

Customer recommendation

FIRE SPRINKLER INDUSTRY

To Whom it May Concern;

██████████ Fire UK Limited have worked with Trace Heating Projects for the last 3 years on various projects across the UK including 4 schools and a care home. They are our go-to trace heating and thermal insulation contractor as they can be relied upon to offer competitive pricing, timely service and a professional approach to all projects. Paul and Amanda in the office work tirelessly to ensure their customers are looked after and the site teams are always punctual, well presented and neat and tidy in their work.

We would recommend that any Client that requires trace heating and thermal insulation to use Trace Heating Projects, and actually have recommended them a number of times ourselves.
